

With spring officially a few weeks away and spring break coming soon, it's a great time to be a Gull. We have our very own March Madness at Endicott this month as winter sports finish their seasons and spring sports begin their schedules. There is always something to do on campus! This is a great time to check in with your students to make sure they have what they need for the home stretch of the semester. If they are coming home to rest or work during break, touch base about housing for next semester and summer plans. If they are going on a trip with friends, it's never a bad time to talk about safety and common sense when traveling. These conversations can be challenging but will ensure a safe and productive spring break and a good plan heading into the end of the semester. As always, if you would like to know more about a program or event in our newsletter, let us know!

Go Gulls!

## Center for Teaching & Learning

The Center for Academic Coaching announces the return of Quick-Connect Coaching. This is a chance for all students, undergraduate and graduate, to connect with a professional academic coach for thirty minutes. You can reserve three meetings with a coach before the semester ends. Appointments are available either in person or remotely via Google Meet.

Use Quick-Connect Coaching to talk about time management, organization, planning, and calendar management. Coaches have good ideas about Canvas best practices, organizing Google Drives, and mapping out strategies for juggling multiple priorities—which all of you have!

The program is available at no charge. Access the Quick-Connect schedule [here](#).

As a reminder, first-year students are not permitted to have vehicles on campus. The only exceptions are granted with pre-approval from the Parking & Traffic Office. Please ensure you and your students are familiar with all parking and traffic policies [located here](#). Our Parking & Traffic Office is available 8 a.m.–4 p.m. Monday to Friday and is willing and able to speak with students about any special circumstances. We look forward to hearing from you!

## Summer Student Employment

Last month, the College held a summer student job fair. If your student was not able to attend, there is still time for them to secure summer employment on campus. Many departments hire students, such as Physical Plant, Misselwood Events, Admission, Post Center, Wyle Center, and more. Job descriptions and ability to apply can be found on Workday: <https://endicott.okta.com/>.

## Internship & Career Center

On February 27, 2024, the Internship & Career Center successfully hosted the annual Internship, Co-op & Career Fair. This year's fair attracted 109 top-tier companies to our campus to recruit our students for internships, co-ops, and/or full-time opportunities. Among the notable companies in attendance: John Hancock, PwC, RSAI, Wayfair, Merrill Lynch, Boston Bruins, Boston Red Sox, NESN, Brigham & Womens, Tufts Medical, CM&B, Four Seasons, Genster, Klaviyo, Innovive Health, PeaceCorps, Reebok, Sasaki Design, United States Secret Service, US Federal Air Marshal, Tighe & Bond, and many more.

We were pleased to welcome over 1100 Endicott students from all class years. The feedback from our attending employers was exceptionally positive, highlighting the professionalism and preparedness of our students. We emphasized with our students the importance of following up with each employer they met at the fair, to help build their network and to foster relationships for current and future employment opportunities.

## Office of Sustainability

Endicott College is about halfway through our annual Campus Race to Zero Waste. Current standings in the nationwide competition are 17th out of 67 schools in waste diversion, 7th/79 schools in per capita recycling, and 14th/85 schools for organic waste. Throughout the last few weeks, The Office of Sustainability has hosted a wide variety of events to engage the campus community and raise awareness of waste reduction behaviors. The most successful event was Endicott's Third Annual Thrift Store, where Gulls were able to shop for free items donated by fellow Gulls while learning about reuse and keeping textiles from the landfill. At the end of the event, 400 lbs of clothing were donated to the local community support center, Beverly Bootstraps. Thank you to all who participated and donated!

Sustainable Endicott's next big focus is Earth Month! This year, the Office of Sustainability is expanding the Earth Week celebration to an entire month of entertaining and educational events. A few major events to look out for include our annual Sustainability Career Fair on March 28, and The North Shore premiere of the film *Inundation District*. This film tells why Boston's Seaport "Innovation District" is in grave danger due to the climate crisis. RSVP [here](#) to attend the premiere and participate in a Q&A with director David Abel. Stay tuned for more events and event details by following [@sustainableendicott](#) on Instagram!
